Directory up for sale;

[www.OJRJ.com](http://www.OJRJ.com)

This is a customized business link directory that currently has around 900 uniques monthly, over 1000 active links and 276 categories.

OJRJ.com is a relatively new directory with light revenue. This link

directory has been heavily advertised and promoted at many popular forums and is cached by Google and all other major search engines.

This directory also allows article submission and I'll throw in 3 months free hosting!

Please post any questions or offers . . . Thanks!

Nice directory, I really enjoy the template and logo . . .

I also noticed that the site now has a PR2, very nice!

I will offer \$250 for the directory, please contact me if interested.
